

Hi, I am Kaio Dias

Product Designer

📍 Based in São Paulo, Brazil. Looking for remote work

As a product designer with over three years of experience at CI&T, I have been working with notable Brazilian brands across multiple industries. I specialize in designing intuitive and user-centered digital solutions, such as websites, softwares and mobile apps. My technical knowledge allows me to better understand the intricacies of the products I design, resulting in more effective solutions. I am passionate about creating products that have a positive impact on society, and I am eager to work with companies that share my commitment to this goal.

Portuguese (Native)
English

EXPERIENCE

- ▶ 2021 - Current **Full-Time Product Designer**
CI&T

I have designed solutions for various brands across diverse industries such as banking, cosmetics, and education. I have experience working through all stages of the product creation process, from discovery to launch. My key responsibilities include participating in the discovery process with stakeholders, developing high-fidelity prototypes, creating design systems, and conducting usability testing to ensure solution quality. I have also led the development process for some projects.
- 2020 **Intern Support Analyst**
- 2018 - 2019 **Scholarship Holder for Scientific Initiation in Art from PIBIC-EM**
National Council for Scientific and Technological Development (CNPq)

As part of the PIBIC-EM program, I led realistic, cartoonish, and digital drawing workshops with a group of young people for the “Youth Culture” project and presented our findings at the XXVII Congress of Scientific Initiation. Through this experience, I developed important skills for my career as a product designer, including research and teaching skills.

EDUCATION

- ▶ 2022 - Current **Diploma in Graphic Design**
Universidade Paulista (located in São Paulo, Brazil)
- 2016 - 2020 **Diploma in Information and Communication Technology**
Technical School of Campinas (Cotuca), maintained by Unicamp
